

Count Us In

Helping people with learning disabilities feel happy and well

Count Us In was a project we started in 2001.

It was about making sure that people with learning disabilities are given support to feel happy and okay.

We worked with young people who were between 13 and 25 years old.

We found out that getting help can be hard, especially if you are between 16 and 18 years old.

We wrote a report called Count Us In.

We also did another project about this called Making Us Count.
